

Remarks

Please note that previous amendments to the specification and claims made under PCT Article 34 should be entered into this case in accordance with MPEP 1893.01(a)(3). The specification is amended above to update the priority claim.

Claims 1-9 (pending after entry of the previous Article 34 amendments) have been cancelled without prejudice to their subsequent introduction into this application or a related application. Claims 10-13 have been introduced herewith to revert the claims back to claims 1-4 as they were originally filed and published. Support is found, for example, in claims 1-4 as filed, and it is believed that no matter is added. Accordingly, Claims 10-13 presently are pending and under consideration.

The Examiner is invited to contact the undersigned attorney with any questions about this submission. Early favorable action is respectfully solicited.
